

Let's build together

We may not wield a hammer or do the heavy lifting, but we are committed to the construction industry. We take pride in providing construction accounting services to a wide variety of clientele in this sector, from small contractors and sub-trades to large real estate developers and home builders. We understand that no matter your size, the challenges are often similar - access to cash, labour shortages and ever-changing legislation, to name a few.

Regardless of whether your business is just taking off, aiming for strong growth or facing challenges, our professionals know what you are going through. RLB can support you in a wide range of ways, including:

- Cash Flow Analysis
- Budgeting
- Tax Planning
- Loan Covenant Compliance
- Subcontractor/quote reconciliations
- Forensic Accounting

Construction Industry Compliance

By understanding the challenges unique to the industry, the depth of expertise at RLB can assist with:

- WSIB & HST Compliance
- Tarion Registration Consulting
- Customized Training Programs

We can help you with business planning and ensure your construction business is successful in all areas. We'll work with you on everything from cashflow and budgeting, accessing financing, operational procedures, succession planning and beyond.
