

Get people to buy in.

There are a lot of investors and lenders out there with capital to invest in your business, but they need to understand your business plan, be impressed by your financials forecasts, and trust that you have skin in the game. That is where we come in. Our Financial Advisory Services team is experienced in preparing the business plans and financial reporting needed to put your investors' minds at ease.

Financial Analysis and Reports

Investors and banks rely on advanced financial analysis to make decisions about helping businesses expand or restructure. They need:

- Quality of Earnings Reports
- Business Plans
- Forecasts, Scenario Projections, and Sensitivity Analysis
- Management Discussion & Analysis
- Compliance Certificates

Certified Experts

Chartered Business Valuator (or "CBV") is the premiere credential in Canada for experts in mergers and acquisitions, corporate finance and business valuation. You can rely on the expertise of our CBVs to evaluate business opportunities and help position you to mitigate risks.
