

Credible Financial Experts

In life, not all things go according to plan. If you're going through the process of a separation or divorce, a breakdown of a business partnership, expropriation, or any other business dispute, you may need a business valuation, income analysis, or a loss quantification. When opposing interests clash, the credibility of financial experts often plays a critical role in the outcome, either during informal mediation or formal court proceedings.

Independent Expert Reports

Our expert reports are prepared in accordance with the Practice Standards of the Canadian Institute of Chartered Business Valuators, which require independence and objectivity:

- Business valuations
- Assessments of income in accordance with Federal Support Guidelines (family law)
- Fraud and Loss Quantification Reports
- Assistance with mediation and arbitration

Certified Experts

Chartered Business Valuator (or "CBV") is the premiere credential in Canada for experts in mergers and acquisitions, corporate finance and business valuation. You can rely on the expertise of our CBVs to evaluate business opportunities and help position you to mitigate risks.
