

Business leaders make decisions that impact their tax liability on a daily basis. Our team works with you to mitigate your tax burden long before the filing deadline and helps you navigate the complexities in a way that fits your unique situation.

Services we offer include:

- Corporate restructuring/tax planning
- Sale or purchase of a business
- Succession & estate planning
- WSIB and EHT compliance and planning
- Compensation planning
- GST/HST (Indirect Tax) Advisory
- US and cross-border tax

Tax Planning

Our team of expert advisors will guide you through any transaction, restructuring, or change you and your business may be facing. We will work closely with your team of advisors such as lawyers, financial advisor, and banking institutions to ensure that you receive the advice and support you need.

We believe tax planning means more than looking at tax consequences. We take a proactive approach to advisory services on any issue our clients may be facing.

Indirect Tax Advisory Services

The regulations around GST/HST can seem complicated and daunting. Our specialized experts know when your business is required to register for HST, can assist with GST/HST audits, and help you navigate the challenges of supplying goods to provinces other than Ontario. We will guide you through the process and can work with CRA on your behalf.

In addition to federal GST/HST our team can assist with other indirect taxes such as PST as it may apply to your specific business and situation.

Cross-Border Expertise & Advisory Services

Foreign expansion may seem unattainable when looking at the regulatory requirements, but our team can help you navigate through the uncertainty and help you find international success. We specialize in Cross-Border Taxes and will work with you on both outbound and inbound business operations. Whether you're completing an international move, opening businesses across borders, or handling real estate transactions, our team is here to help. They understand the rapidly changing legislation and work with you on a variety of projects including accounting, tax planning, and preparation of returns for both Canadian and US residents.
